

Nandha Kumar.M

Graphics Designer

About Me

Hi! I'm Nandha Kumar.M, a BSc Computer Science student at Bharathiyar University. I'm passionate about technology and enjoy coding, problem-solving, and learning new things in the tech world. I've worked with languages like Python, Java, and C++, and I'm particularly interested in [area of interest, like AI, web development, etc.]. Outside of class, I love collaborating on projects and participating in hackathons. I'm excited to keep growing my skills and make a real impact in the tech industry!

(2024 -2027)

KAAMADHENU ARTS AND SCIENCE
COLLEGE,BHARATHIYAR UNIVERSITY

Bachelor of science

3.65

INTERESTS

Photoshop

Watching Tech Videos

Participating in Social Activities

PROJECTS

Image classification using Machine Learning

Developed an Image Classification system using Machine Learning techniques.

PHP Basic

Implemented the project using Python with libraries like TensorFlow/Keras and OpenCV.
C++

Trained the model on a labeled dataset to accurately classify images into predefined categories.

Manual Testing

Focused on improving model accuracy through data preprocessing and tuning parameters
